

Preparing for the Admission Interview

The interview is a very important component of the admission process, and our best opportunity to get to know you as a person. We recognize that in a collaborative learning environment such as ours, each student will have a significant impact on the experience of the others.

Because of this emphasis on peer learning, we have a strong interest in knowing more about you and the level of accomplishment you would bring to our entering class. Before you interview, take time to review your background and be prepared to speak in detail about your professional accomplishments, whether from a business, volunteer or non-profit setting. Be prepared to discuss specific examples in which you made an impact on the organization. Also, think about your career goals and be prepared to discuss how you wish the MBA to impact your career.

We recognize that the interview is also an important opportunity for you to gain insight into the program and culture of the Neeley School. Our staff members are experts on the program. We encourage you to ask questions to gain perspective not covered on our website or printed materials.
