Health Care MBA

**Transform your career and
shape the future of health care.**

The health care industry needs thought leaders and change agents with fundamental business skills to tackle the challenges of access, cost and quality. The TCU Health Care MBA combines the respected MBA credential with industry perspectives and professional relationships designed to propel your career.

Health Care MBA

42 Credit Hours

Evening Format
Complete in 24 Months
Fall Semester Start

- 25.5 hours of core MBA courses
- 10.5 hours of health care-specific courses
- 6 hours of business or health care electives

Accelerated Health Care MBA

36 Credit Hours

Evening Format
BBA Required
Summer Semester Start

Program Features

Built for working professionals, values face-to-face interactions, leverages distance learning technologies, incorporates real-world projects and experiential learning through curricular and co-curricular programming, a blended learning environment that offers convenience without sacrificing personal connection.

I am excited to announce that I recently accepted an offer from Connect Pediatrics and joined the team as Talent Acquisition Director! I'm really excited to get into this space and looking forward to hiring and working alongside clinicians that will provide quality health care to children.

Huge thanks to TCU Neeley School of Business for delivering on their promise and equipping me with the tools needed to unleash my potential and make me a marketable candidate in the health care industry.

Alex Morales

Director Talent Acquisition at Connect Pediatrics
